

Pozitivne ocene izvedbe seminarjev tehničnih delegatov FIS v SLO/Balk/Mediteranski regiji.

V skladu z zahtevami FIS se morajo tehnični delegati poleg aktivnega udejstvovanja na tekmovanjih udeležiti tudi vsakoletnih licenčnih seminarjev.

V naši regiji, ki zajema 12 držav s 43 tehničnimi delegati sta bila v novembru 2019 izvedena dva seminarja in sicer v Mariboru dne 8.in 9.11 in v Sofiji dne 29.in 30. 11. 2019

Oba seminarja sta bila s strani FIS ocenjena kot uspešna in na profesionalnem nivoju.

Seminarja v Mariboru, ki ga je organizirala Komisija tehničnih delegatov in sodnikov pri SZS, se je udeležilo 19 delegatov FIS iz Slovenije, upravičeno sta manjkala dva. Prvi dan seminarja je bilo prisotnih tudi 12 delegatov državnega ranga SZS,

Seminarja so se udeležili še Tehnični delegati in pripravniki iz BIH, CRO, HUN, MNE in SRB,

Inšpektorica FIS je bila Jana Palovicova iz Slovaške, veliko pa je k uspešnosti seminarja prispeval glavni direktor ženskega svetovnega pokala Peter Gerdol, s pojasnili trendov v alpskem smučanju in primeri iz prakse.

Več o seminarjih najdete v nadaljevanju.

Matter: TD Update Maribor SLO, November 8th and 9th, 2019

Report

Hotel and seminar room was good and well prepared.

The program of the TD Update was prepared by FIS and adapted to the situations in our region (see enclosure). The first date were calculations and Penalty through – because Tds to do at home. No everybody were good prepare for this calculation at home.

Big discussion about calculation hand timing between system A and B. This question is not so easy for more TDs, but Bojan Perko prepared good examples. The serious discussion continued through the whole program on Friday and Saturday.

From practical cases and questions were very good discussions and more examples from praxes. This part is very important for everybody. Matjaz Kranjc, as a leader of the TD Update gave to TDS more extra examples and this point was very good.

A great contribution to the seminar's quality was given by ski expert and he chief director of women WC Peter Gerdol. He was ready to answer to all difficult question regarding the new rules, proposals, changing of philosophy of alpine skiing and development of disciplines in the futurity.

FIS Equipment controller (EC, WJCS, UVS) explained the specifications of equipment and presented the measuring of skis, boots and suits.

The discussions continued on Friday evening through TDs dinner and this evening socializing were also exciting.

On Saturday – I (Jana) was more occupied with exams, but the program was continued in a good atmosphere.

At the end TD Licenses and assignments for the FIS races in 2019/20 had been distributed..
